DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this

Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

Claims 1, 6, 7, 12, 14, and 16 are rejected under 35 U.S.C. 102 (b) as being anticipated by Kusama (US 20020013659A1).

Kusama teaches a navigation system/method in which road lanes are stored in a map database (Kusama, abstract). The storage device (2) shown in figure 1 of Kusama includes a map database (5) that stores road lanes (Kusama, page 2, paragraph 0041), the physical road lane data such as start point, end point, physical features adjacent to and extend along a represented physical road lane are also disclosed (Kusama, page 2, figure 5, the middle lane indicates a represented physical road lane, the left and right lane indicate the physical road features are adjacent to and extend along the middle road lane, each road lane also includes start and end point to limit a road lane.

Allowable Subject Matter

Claims 17-21 are allowable.

Claims 2-5, 8-11, and 15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Amendment

The declaration filed on 07/24/2006 under 37 CFR 1.131 is sufficient to overcome the cited reference to Casino.

However, the application cannot be placed in a condition of allowance since the new reference to Kusama has been found reads on the limitations of claims 1, 6, 7, 12, 14, and 16 as discussed herein above.
